

## **LANrev LP Ships LANrev 4.6.1**

*Update assists IT Department's compliance with Sarbanes-Oxley requirements*

Addison, TX—December 20, 2007—LANrev LP today released LANrev 4.6.1, an update to the all-in-one lifecycle management software for heterogeneous networks. LANrev 4.6.1 adds to the industry-leading LANrev cross-platform architecture several new features and enhancements.

“LANrev 4.6.1 enables IT to proactively extend its critical role with regard to Sarbanes-Oxley compliance, ” said Peter Frankl, founder and COO of LANrev LP. “LANrev automates the discovery and ongoing management of IT assets as they are acquired, put into use and disposed of, with automated reporting, and customizable filtering, thereby enhancing the IT department's ability to fulfill Sarbanes-Oxley requirements.”

LANrev 4.6.1 also adds the ability to create pending software distribution reports that enable IT to determine at a glance the endpoints that have installed assigned packages or patches and even the ones that have not. Additionally, LANrev 4.6.1 adds various performance improvements and enhancements.

About LANrev LP:
